CB-26P Fitting position

Chrysler PT Cruiser

The new Chrysler PT Cruiser is proving very popular and hasn't escaped the Ecotek treatment. Here is an example with a Chrome Combo:

"I've fitted your Ecotek valve plus the Pipercross muffler to my 2001 Chrysler PT Cruiser 2.0l.

The sound takes a little getting used to, particularly at very low speed in urban traffic jams; a little reminiscent of bearings running dry..., but the benefits are positive.

On mixed use I estimate about 9% fuel economy improvement, which means the purchase will pay for itself in about 8 months. In addition, the responsiveness of the engine seems improved, with flat spots removed. Nice one!"

Yours Sincerely - Graeme Stock
