CB-26P Fitting position

Fiesta XR2:

"The first thing that struck me was the induction noise, (similar to a carb but on the overrun) although very audible with the bonnet open inside the car it was quite bearable - had it not been, a specially designed Pipercross noise reducer/filter is available!

A quick spin later and a few noticeable improvements, gear changes seemed smoother both up and down and tick over was somehow smoother too! I have not driven enough miles to confirm the fuel reduction claims but they would appear quite substantiated judging from my last tank full of petrol."

Dave Moore - Fast Ford. (visit <http://www.fastfords.org.uk/prodtest.html> for their full review).
